INTEGRA FOR EDUCATION

AI-Powered

One platform for the whole campus

Admissions, students, fees, exams, timetables, hostels, transport, staff and accounts, connected in one system.

Built for every kind of institution, in any country, on any device.

- K-12 Schools
- Colleges
- Universities
- Training Institutes

Why Integra

Most campuses run admissions in one tool, fees in another and accounts in a third. Integra puts them on one record, so the office, the staff room and parents see the same facts.

From scattered tools to one connected campus

Without Integra	With Integra for Education
– Enquiries and applications tracked in registers and spreadsheets	✓ One admission workflow from enquiry to enrolment
– Fee receipts reconciled by hand with the accounts package	✓ Every fee receipt posts straight to the ledger
– Concessions and late fees worked out case by case	✓ Sibling concessions, scholarships and late fees applied by rule
– Marks collected on paper and typed into report cards	✓ Gradebooks, internal assessment and report cards in one place
– Hostel and bus allocations kept in separate lists	✓ Hostel beds and transport routes linked to each student
– Parents call the office to ask about fees and attendance	✓ Parents get messages and see updates on their phone
– Each branch runs its own system	✓ All branches and institutions on one platform

The solution

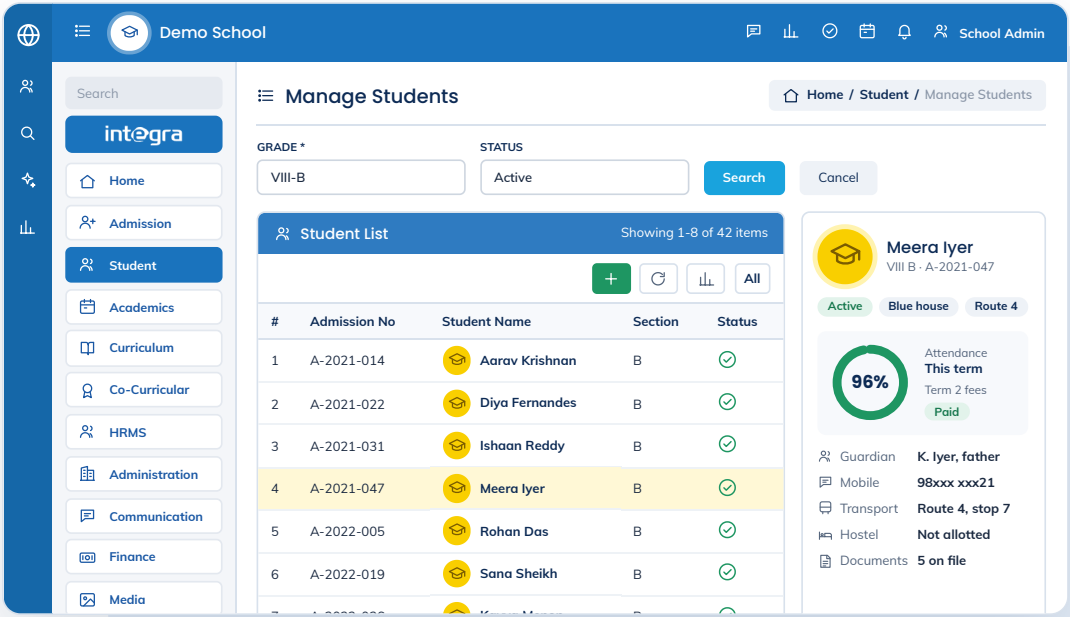
The Education pack adds what is specific to academics. Finance, people, documents, messaging and facilities come from the shared Integra core, so nothing is built twice and every rupee lands in one ledger.

Your campus at the centre, the Integra core around it

Admissions & Students

Capture an enquiry once and carry it through application, admission, enrolment and every year that follows. Guardians, documents and history stay attached to the student.

Every student, one complete record

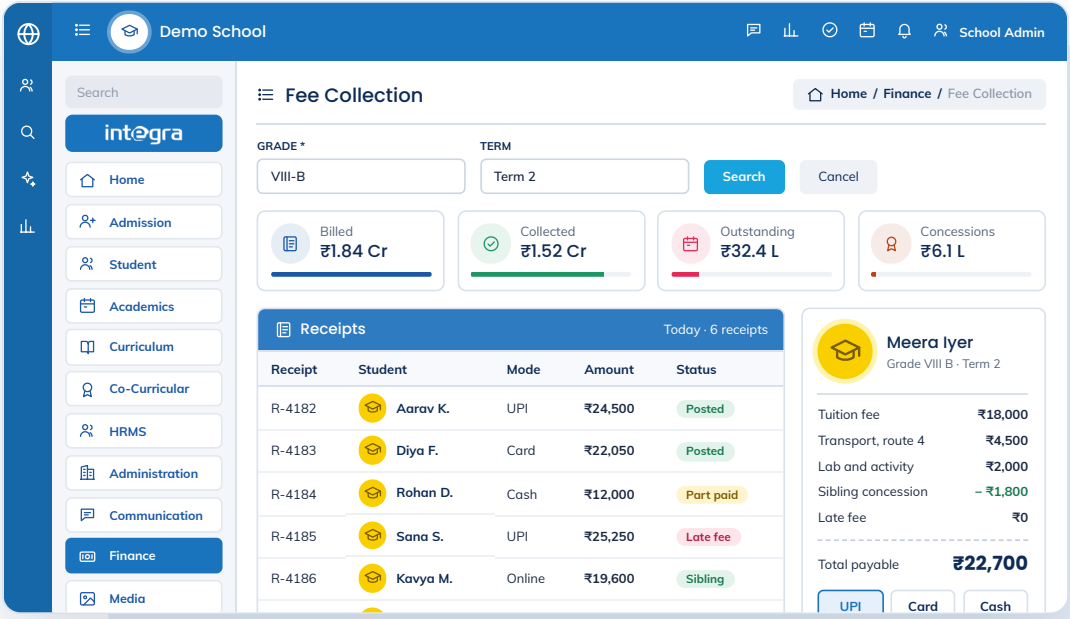


- Enquiry-to-admission workflow
- Online applications with approvals
- Roll numbers, classes and sections
- Guardian and emergency contacts
- Biometric and mobile attendance
- Certificates and transfer records
- Student documents in one place
- Bulk promotion to the next class

Fees & Accounts

Term-wise fee plans, concessions and penalties are set once. Each receipt flows into receivables and the general ledger, so the accounts team never re-keys a fee.

Fees that post themselves



- Term-wise fee plans by class
- Scholarships linked to students
- Online payment through gateway
- Outstanding fees by class and term
- Sibling concessions by rule
- Automatic late-payment penalties
- Receipts posted to the ledger
- Collection reports by branch

Everything a campus runs on

58 modules in 11 areas. Switch on what you need today and add the rest as your institution grows. Every stage of the student journey runs on one record.

Connected campus

Devices, payments and messages connect to the same student and fee records.

Connected to everything around your campus

Biometric and RFID attendance

Attendance from biometric devices, RFID cards and barcodes lands on the student record.

Transport with GPS

Routes, stops and vehicles linked to students, with GPS tracking integration.

SMS, WhatsApp, Email & IVRS

Fee reminders, attendance alerts and circulars go out from the same system.

Payment gateway

Parents pay online and the receipt posts to the ledger automatically.

Mobile apps

Parents, students and staff see attendance, fees and notices on their phones.

Works offline

Mobile attendance keeps working without a network and syncs later.

Secure role-based access

Teachers, office staff and management see only what their role allows.

Reports across branches

Admissions, collections and results across every branch and institution.

Integra AI

AI built into every module. It suggests, people decide.

Smarter every day, with people in control

AI Assistant

Ask about fees, attendance or results in plain language and get the answer from your own records.

Auto Timetable

Clash-free timetables generated from your classes, subjects and staff availability.

Early Warnings

Falling attendance and overdue fees are flagged early, so staff can act in time.

Smart Documents

Certificates and forms are read and filed automatically against the right student.

AI suggests, people decide. Every AI action is approved and logged.
