● Colleges

● Universities

● Training Institutes

Why Integra

Most campuses run admissions in one tool, fees in another and accounts in a third. Integra puts them on one record, so the office, the staff room and parents see the same facts.

From scattered tools to one connected campus

Without Integra

- Enquiries and applications tracked in registers and spreadsheets
 - Fee receipts reconciled by hand with the accounts package
 - Concessions and late fees worked out case by case
 - Marks collected on paper and typed into report cards
 - Hostel and bus allocations kept in separate lists
 - Parents call the office to ask about fees and attendance
 - Each branch runs its own system
-

With Integra for Education

- ✓ One admission workflow from enquiry to enrolment
 - ✓ Every fee receipt posts straight to the ledger
 - ✓ Sibling concessions, scholarships and late fees applied by rule
 - ✓ Gradebooks, internal assessment and report cards in one place
 - ✓ Hostel beds and transport routes linked to each student
 - ✓ Parents get messages and see updates on their phone
 - ✓ All branches and institutions on one platform
-

The solution

The Education pack adds what is specific to academics. Finance, people, documents, messaging and facilities come from the shared Integra core, so nothing is built twice and every rupee lands in one ledger.

Tightly integrated platform

Your campus at the centre, the Integra core around it

Admissions & Students

Capture an enquiry once and carry it through application, admission, enrolment and every year that follows. Guardians, documents and history stay attached to the student.

Every student, one complete record

Fees & Accounts

Term-wise fee plans, concessions and penalties are set once. Each receipt flows into receivables and the general ledger, so the accounts team never re-keys a fee.

Connected campus

Devices, payments and messages connect to the same student and fee records.

Works with the tools your campus already uses

Connected to everything around your campus

Biometric and RFID attendance

Attendance from biometric devices, RFID cards and barcodes lands on the student record.

Transport with GPS

Routes, stops and vehicles linked to students, with GPS tracking integration.

SMS, WhatsApp, Email & IVRS

Fee reminders, attendance alerts and circulars go out from the same system.

Payment gateway

Parents pay online and the receipt posts to the ledger automatically.

Mobile apps

Parents, students and staff see attendance, fees and notices on their phones.

Works offline

Mobile attendance keeps working without a network and syncs later.

Secure role-based access

Teachers, office staff and management see only what their role allows.

Reports across branches

Admissions, collections and results across every branch and institution.

Integra AI

AI built into every module. It suggests, people decide.

Smarter every day, with people in control

AI Assistant

Ask about fees, attendance or results in plain language and get the answer from your own records.

Auto Timetable

Clash-free timetables generated from your classes, subjects and staff availability.

Early Warnings

Falling attendance and overdue fees are flagged early, so staff can act in time.

Smart Documents

Certificates and forms are read and filed automatically against the right student.

AI suggests, people decide. Every AI action is approved and logged.
