INTEGRA ONE – COMPLETE ERP

AI-Powered

The complete ERP in one subscription

Finance, people, customers, sales, supply chain, projects, assets, documents and AI, in one subscription.

One platform, one login, one ledger. Any industry, any country, any device.

- Growing Businesses
- Multi-branch Companies
- Groups of Companies
- Institutions

01

Why Integra One

Most organisations pay for an accounting package, an HR tool, a CRM, a stock system and spreadsheets in between. Integra One replaces them with one complete ERP, so every team works on the same records.

From many tools to one complete ERP

Without Integra	With Integra One
– Five or more subscriptions to manage	One subscription for the complete ERP
– Customers, items and employees typed into several systems	Master data entered once, shared by every module
– Separate ledgers reconciled at month end	Every transaction posts to one ledger
– Approvals on paper, email and calls	Workflow approvals with a full history
– Reports stitched together from exports	Live dashboards across branches and companies
– Each new tool needs its own integration	25 modules already connected
– A new branch or country means new software	Companies, branches and countries on one platform

02

Everything included

Integra One includes all 25 core modules: finance, people, customer and sales, supply chain, projects, assets, shared services, governance and AI. Industry packs add the workflows of your industry on top.

One core, every suite, your industry on top

03

Every suite included

Each suite is also sold on its own. With Integra One you get them all, sharing one set of masters, one ledger and one audit trail.

Six suites, one subscription

Finance

Ledger, receivables, payables, banking, assets, tax, budgets and consolidation.

People

Employee records, attendance, leave, payroll, performance and self-service.

Customer

Leads, pipeline, accounts, campaigns and customer feedback.

Commerce

Quotations, sales orders, pricing, dealers, dispatch and returns.

Supply Chain

Requisitions, RFQs, purchase orders, warehouses, batches and transfers.

Services

Projects, timesheets, project billing, assets and maintenance.

Shared services

Documents, workflow, notifications and the integration hub.

Governance and AI

Master data, risk and audit, rules, reporting and Integra AI.

04

One ledger, one truth

Because every module shares the same masters and ledger, numbers agree across teams without reconciliation.

Numbers every team agrees on

Posts as it happens

Sales, purchases, payroll, stock and projects post to one ledger.

Masters entered once

One customer, supplier, item and employee record across the business.

A complete audit trail

Posted records are corrected by reversal, and every change is logged.

Live group reports

Dashboards across branches, companies and currencies, on demand.

05

25 core modules

25 modules in 9 areas. Switch on what you need today and add the rest as you grow.

Finance

One ledger for every company.

- General Ledger
- Receivables
- Payables
- Cash & Bank
- Tax
- Consolidation

People & Payroll

Hiring to payslip on one record.

- Employee Records
- Attendance
- Leave
- Payroll
- Performance
- Self-Service

Customers & Sales

Every lead, order and customer.

- Leads & Pipeline
- Accounts
- Quotations
- Sales Orders
- Pricing
- Dispatch

Supply Chain

From requisition to warehouse.

- Requisitions
- RFQs
- Purchase Orders
- Warehouses
- Batch & Serial
- Transfers

Projects & Assets

Delivery and equipment under control.

- Projects
- Asset Register
- Timesheets
- Maintenance
- Project Billing
- Service Desk

Shared Services

What every module relies on.

- Documents
- Notifications
- E-signature
- Integration Hub
- Workflow
- Open APIs

Governance & Data

Control built in.

- Identity & Access
- Internal Audit
- Master Data
- Rules & Policies
- Risk & Compliance
- Data Governance

Intelligence & AI

Answers, forecasts and alerts.

- Dashboards
- Forecasts
- Report Builder
- AI Copilot
- KPI Registry
- Anomaly Alerts

06

Connected and open

Banks, devices, messaging and your existing systems connect to the same records.

Connected to everything around your business

Banks & payments

Statement import, reconciliation and payment gateways, posted to the ledger.

Mobile apps

Web and mobile apps for staff, customers and suppliers.

Works offline

Field teams keep working without a network and sync later.

SMS, WhatsApp & Email

Alerts, reminders and approvals from the same system.

Devices

Biometric, RFID, barcode and GPS devices feed attendance, stock and fleet.

APIs & webhooks

Versioned APIs and webhooks connect the systems you already run.

Multi-company and currency

Several companies, branches and currencies with country tax rules.

Secure by design

Data isolated per organisation, role-based access and multi-factor sign-in.

07

Integra AI

AI built into every module. It suggests, people decide.

Smarter every day, with people in control

AI Copilot

Ask about sales, stock, payables or attendance in plain language.

Smart Documents

Bills, invoices and forms read and matched automatically, ready for review.

Early Warnings

Unusual transactions, overdue payments and stock risks flagged early.

Forecasts

Cash, sales and demand forecasts from your own history.

AI suggests, people decide. Every AI action is approved and logged.

Your path to Integra One

Let's build your Integra One

Tell us how your organisation works and we will show you the complete ERP running your processes.
