INTEGRA FOR MANUFACTURING

AI-Powered

One platform from order to dispatch

Sales, planning, production, stores, purchase, quality, maintenance, people and accounts, connected in one system.

Built for discrete and process manufacturers, in any country, on any device.

- Workshops
- SME Manufacturers
- Process Industries
- Multi-plant Groups

Why Integra

Many plants run orders in spreadsheets, stock in one tool and accounts in another, with production on paper. Integra puts them on one platform, so sales, the shop floor and accounts see the same facts.

From scattered tools to one connected plant

Without Integra	With Integra for Manufacturing
– Quotes priced from memory or old spreadsheets	✓ Quotes costed from the bill of materials
– Material shortages found on the day of production	✓ MRP shows what to buy and make in advance
– Production status chased by phone	✓ Live output and downtime from the shop floor
– Stock in the system never matches the store	✓ Batch, bin and barcode tracking of every item
– Rejections noticed only at the customer	✓ Inspections at receipt, every stage and dispatch
– Machines repaired only after they break	✓ Preventive maintenance and tool life alerts
– Real product cost known after the year ends	✓ Actual cost of every order, as it happens

The solution

The Manufacturing pack adds what is specific to plants. Finance, people, stock, documents, messaging and reporting come from the shared Integra core, so nothing is built twice and every transaction lands in one ledger.

Your plant at the centre, the Integra core around it

Order to dispatch

From the first enquiry to the final invoice, every step is recorded once and shared with every department that needs it.

Every order, one connected flow

Enquiry and quote

Quotes costed from the bill of materials and sent in minutes.

Sales order

Delivery dates and quantities confirmed against stock and capacity.

Plan

MRP turns orders into purchase and production suggestions.

Buy

Purchase orders, gate entry and goods receipt matched to the order.

Make

Work orders issued, output and rejections recorded at the machine.

Inspect

Checks at every stage, with certificates for every batch.

Dispatch

Packing lists, e-way bills and tax invoices from the same order.

Collect

Receivables, payments and the real margin on every order.

Shop floor & Quality

Output, rejections, downtime and inspections recorded where the work happens, not at the end of the shift.

See your plant as it runs

Shop floor kiosk

Operators start and stop jobs and record output on a tablet. No user licence needed.

Quality at every stage

Incoming, in-process and final inspections, with NCR and CAPA to close issues.

Maintenance and tools

Breakdowns, preventive schedules and tool life tracked by machine.

Straight to the ledger

Material, labour and overheads roll into product cost and the accounts automatically.

Everything a plant runs on

45 modules in 11 areas. Switch on what you need today and add the rest as your plant grows.

Sales & Planning

From enquiry to a plan you can trust.

- CRM & Enquiries
- Quotations
- Sales Orders
- Bill of Materials
- MRP
- Scheduling

Production

Every work order, every operation.

- Work Orders
- Routings
- Shop Floor Kiosk
- Job Work
- Scrap & Rework
- Process Batches

Inventory & Purchase

The right material, in the right place.

- Inventory
- Batch & Serial
- Warehouse & Bins
- Barcodes
- Purchase
- Supplier Portal

Quality

Quality built in, not inspected in.

- Incoming Inspection
- In-process QC
- Final QC
- NCR & CAPA
- Certificates
- Calibration

Maintenance & Assets

Machines that keep running.

- Breakdowns
- Preventive Maintenance
- Tools & Moulds
- Spares
- Machine Connect
- OEE

Costing & Finance

The real cost of every product.

- Accounts & Finance
- Product Costing
- Cost Centres
- Budgets
- Export & EXIM
- Consolidation

People & Compliance

Staff, contractors and compliance, connected.

- Shifts & Attendance
- HR & Payroll
- Contract Labour
- E-invoicing
- Drawings & SOPs
- Audit Trail

Intelligence & Platform

Numbers, AI and apps across every plant.

- Reports & Analytics
- Integra AI
- Owner App
- Customer Portal
- Integrations
- Multi-plant

Connected plant

Machines, scales, scanners, banks and messages connect to the same orders and records.

Connected to everything around your plant

Machines

Cycle counts, status and downtime captured from machines with Machine Connect.

Barcode scanners and printers

Labels printed and scanned at receipt, issue, production and dispatch.

Weighbridges and scales

Weights flow straight into receipts and dispatches.

E-invoicing and e-way bills

Tax documents generated from the invoice without retyping.

Biometric attendance

Attendance from biometric devices feeds shifts and payroll.

SMS, WhatsApp & Email

Order confirmations, dispatch alerts and statements from the same system.

Secure role-based access

Each team sees only what its role allows, and every change is logged.

Multiple plants

Run several plants and companies on one platform with group reports.

Integra AI

AI built into every module. It suggests, people decide.

Smarter every day, with people in control

AI Assistant

Ask about pending orders, output or stock in plain language and get answers from your own records.

Demand Forecasts

Expected demand by product helps plan material, capacity and staff.

Purchase Suggestions

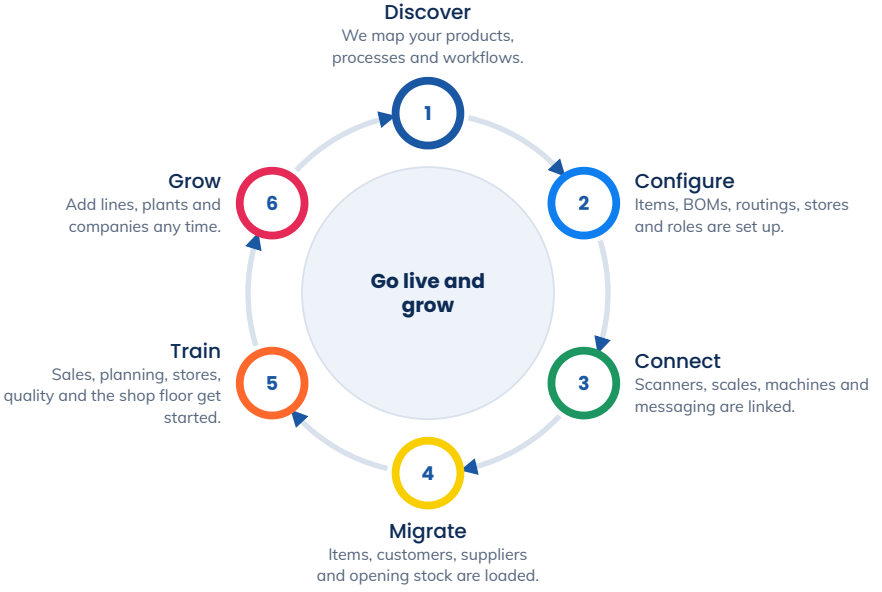
Suggested purchase quantities from forecasts, BOMs and stock.

Early Warnings

Late orders, rising rejections and machines due for service are flagged early.

AI suggests, people decide. Every AI action is approved and logged.

Your path to a connected plant



Let's build your connected plant

Tell us how your plant works and we will show you Integra running your orders, production and stock.
