INTEGRA SUPPLY CHAIN SUITE

AI-Powered

From requisition to the right shelf

Requisitions, sourcing, purchasing, suppliers, receiving, stock, warehouses and logistics, connected in one system.

Built for buyers, stores and warehouse teams of every size, in any country, on any device.

- Procurement Teams
- Stores & Warehouses
- Distributors
- Multi-site Groups

01

Why Integra

Many businesses raise requests on paper, buy over email and count stock in spreadsheets. The Supply Chain Suite puts purchasing, suppliers and stock on one platform, so buyers, stores and finance see the same facts.

From scattered tools to one supply chain

Without Integra	With Integra Supply Chain Suite
– Purchase requests on paper and email	✓ Requisitions approved by rule, with budget checks
– Quotes compared in spreadsheets	✓ RFQs and comparison sheets in the system
– Negotiated rates forgotten on the next order	✓ Rate contracts applied automatically
– Bills paid without checking the delivery	✓ Three-way matching before payment
– Stock in the system never matches the shelf	✓ Bin-wise stock with mobile counts
– Shortages found when the stock runs out	✓ Replenishment suggested before it runs out
– Stock value disagrees with the ledger	✓ Valuation posted straight to finance

02

The solution

The Supply Chain Suite runs procurement, inventory and warehousing on the Integra platform. Finance, documents, workflow and messaging come from the shared core, so every receipt and bill lands in one ledger.

Buy, store and move on one platform

03

Procure to pay

From the first request to the supplier's payment, every step is recorded once and shared with buyers, stores and finance.

Every purchase, one connected flow
