INTEGRA FOR TRANSPORT & FLEET

AI-Powered

One platform for every vehicle

Vehicles, trips, drivers, fuel, maintenance, tickets, freight and accounts, connected in one system.

Built for fleet, bus and logistics operators of every size, in any country, on any device.

- Fleet Owners
- Bus Operators
- Logistics Companies
- Staff & School Transport

01

Why Integra

Many operators run trips on paper, fuel in a notebook and tickets in a separate system. Integra puts them on one platform, so the depot, the drivers and the accounts team see the same facts.

From scattered records to one connected fleet

Without Integra	With Integra for Transport & Fleet
– Permits and insurance found expired at a checkpoint	✓ Expiry alerts for every vehicle and driver document
– Fuel slips collected by hand at month end	✓ Every litre recorded against the vehicle and trip
– Breakdowns fixed only after they happen	✓ Servicing scheduled by kilometres and dates
– Seats double-booked across counters and agents	✓ One live seat chart for every channel
– Driver advances settled from memory	✓ Advances and expenses settled trip by trip
– No idea which vehicle actually makes money	✓ Cost and revenue per vehicle, route and trip
– Tickets and freight re-keyed into the accounts	✓ Every ticket and invoice posts to the ledger

02

The solution

The Transport pack adds what is specific to fleets, buses and logistics. Finance, people, stock, documents, messaging and reporting come from the shared Integra core, so nothing is built twice.

Your fleet at the centre, Integra around it

03

Every trip, end to end

From planning the trip to closing the accounts, every step is recorded once and shared with every team that needs it.

Every trip, one complete record
